SKILLS

Python Programming, Javascript, PHP ,HTML WebPage Designing, SQL-DBMS, JAVA Programming
Microsoft Excel, Microsoft Word, etc.

PROJECTS

AI Yoga Pose Detection

"YUJGURU" is a AI based yoga pose estimation website Which helps the users to estimate yoga poses efficiently. Here ,the yoga experience is implemented with traditional methods and modern technology.pose estimation involves localizing various body joints like shoulder, hip, elbow, ankle, knee, etc., at the correct location of a static image or video data. Body joint detection and localization are carried out in two-dimensional coordinates (x, y) or three-dimensional coordinates (x, y, z)

Face Detection using AI

Face detection is a computer technology that is used to identify human faces in digital images or video frames. It is a subset of computer vision technology that uses algorithms to detect and analyze the presence of human faces in images or videos..

EDUCATION

2021-2024 : Bachelor of Computer Applications, **Calicut University**

2019-2021 : Class 12th at Savio.H.S.S, Devagiri

2019 : Class 10th at Presentation H.S.S.

TECHNICAL CERTIFICATIONS

Fundamentals of Programming and Introduction to Artificial Intelligence (2023-2024)
